

## Update to SAT Calculator Policy

Effective for the August 2025 SAT Weekend administration and the October 2025 in-school SAT and PSAT-related assessments testing window, calculators with CAS functionality will no longer be allowed for tests within the SAT Suite of Assessments. We regularly review our calculator policy to ensure fairness to all students who take the SAT. As usage of CAS calculators evolves, their functionality provides users with distinct advantages over non-users for tests within the SAT Suite of Assessments. This policy update reflects both changes in calculator usage and the feedback of educators, students, and families.
